

Witness Contact

Williams, Larry

ATF  
556-2889

8/12/86

I contacted Larry and George Henderson, 904 791 3468  
about records of ammunition purchases from the Traders  
in San Leandro.

George remembered that the copies in the file were those from the Traders but he did not know who picked them up or who copied them. They did not contact any other store about ammunition.

Larry stated that Lou Bristol picked up the books from  
the Traders while he was there on another case and that  
he and George went through them and did not find any entry  
where ammunition of the type used by Carpenter was purchased  
by Mollie Purnel or anyone else on the day in question.

He will attempt to locate the books and call me back

8/13/86.

I went to the Traders on this date and attempted to locate the books with negative success. I did find that there appears to be more than one book for the same date. They are looking for the books dated 9/80 and promise to call me when and if they located any. Possibly there is another book at the Traders for the same period of time.

8/12/86 Larry Williams indicates that they have the books  
in their evidence locker, he will locate and bring them to me  
9/10/86 Books brought to MARIN D.A. and are available for  
review.
